Pearson, 2011. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: Teaching Science to Culturally and Linguistically Diverse Elementary Students includes relevant examples and real teacher moments. A great resource for in-service teachers. - Karisa S. Dodds, Science Facilitator, Myers Park Traditional, Charlotte, NC I have used Science Backpacks and found them a wonderful way to extend the school day and involve families in their child's learning. Many ideas were new to me and I enjoyed the fact that they were very simple to implement, yet would be a valuable use of my time. - Kristi Trotter Hattenhauer, Science Coach/Lab Facilitator, Jonesboro Math and Science Magnet School, Jonesboro, AR This book does a great job of giving research and theory while outlining practical ways of bridging the gap between information and how this process might look in a classroom. This book combines all the elements of what is needed to successful teach in a culturally relevant way a subject that many minorities feel offer no connection to their present day lives or future goal attainment. Additionally, it can serve as a springboard for discussions on how teachers can improve the job that they are doing at better teaching and reaching all students. - Cheryl Harris Curtis, Educational Consultant II, NC Department of Public Instruction, Raleigh , NC.
