Brookings Institution. Paperback. Book Condition: new. BRAND NEW, Party Lines: Competition, Partisanship, and Congressional Redistricting, Thomas E. Mann, Bruce E. Cain, The legitimacy of the American electoral system depends on sustaining reasonable levels of fairness, accountability, responsiveness, and common sense. The perfunctory character of Congressional elections is another growing problem --in 2002, only four House incumbents were defeated in the general election, the lowest in American history. Despite a hotly contested presidential contest in 2004, that number increased by only three. In Party Lines , eminent political analysts explain the legal and political history of redistricting since the one person-one vote revolution in the 1960s and place it in the larger context of American politics. The authors document the impact of redistricting on competition, polarization, and partisan fairness, and they assess the role technology played in the redistricting process. The final chapter analyzes options for reform, including most importantly the use of independent redistricting commissions as an alternative to the normal state legislative process. Redistricting reform is no panacea but it is a start toward ensuring that American voters still have the largest...
