

Mathematical Puzzles and Curiosities

By Barry R. Clarke

Dover Publications Inc., United States, 2013. Paperback. Book Condition: New. 212 x 134 mm. Language: English . Brand New Book. I highly recommend this delightful book. It contains not only excellent puzzles, but also extremely interesting commentaries and anecdotes. Raymond Smullyan, author of *To Mock a Mockingbird* This intriguing mix of thought-provoking diversions offers articles on recreational math as well as puzzles involving logic, mathematics, and creativity. Many of these intellectual challenges first appeared in Barry R. Clarke's Daily Telegraph (UK) column, and none requires any background beyond basic algebra skills. Classic puzzles include original takes on The Monty Hall Problem, The Unexpected Hanging, and The Sleeping Beauty Problem. Entirely new offerings include The Shakespeare Puzzles and Finger Multiplication. A selection of engaging creativity puzzles provides ideal material for group problem-solving sessions. Some of the problems feature hints, and solutions to all of them appear at the end of the book.

Reviews

I just began looking over this pdf. It is one of the most amazing pdf i have study. I discovered this book from my dad and i recommended this pdf to understand.

-- Merritt Kilback II

Good e book and useful one. I have got read and that i am confident that i will likely to go through once more again later on. It is extremely difficult to leave it before concluding, once you begin to read the book.
