Date :2006-6-1. Located in the northeastern margin of Qinghai-Tibet Plateau Yellow Black River gorge is the Yellow River water resources development has a very high value of the river canyon. Book is based on regional stability and dynamics theory. the Qinghai-Tibet Plateau uplift and deformation with progressive new ideas. the system described by plateau uplift in its internal and peripheral effects of disasters resulting from tectonic activity. earthquakes and effects effects of geological disasters. On this basis and in accordance with a large number of survey data. further systematic study of the dynamics of regional non-stable environment. a large black willow river gorge dam export faulting effects exist. engineering dislocation effects. effects of loose rock and loose rock physical effects of deformation and failure group holes and other major engineering geological problems. This book is rich in content. informative. advanced the theory is a systematic study of the regional stability of major projects of academic monographs. available in the Qinghai-Tibet Plateau uplift dynamics. structural geology. seismic geology. engineering geology and rock mechanics of teaching. and researchers engaged in hydropower engineering. traffic engineering and other major engineering survey and design of the officers. Contents: Preface Introduction Section II raised the issue of the meaning of Section stability study area on the main contents of the book and its technology roadmap Chapter Overview Section kinetic theory of regional stability and kinetic stability of the region the second research section of the theme of regional stability and dynamics III regional stability dynamics of the basic principles of Chapter II of the regional non-Tibetan Plateau and its stable dynamic environment hazard effects section and the...
